

Transforming business operations using AI & DeepTech research

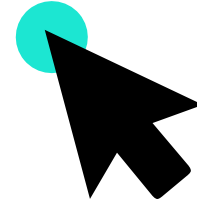

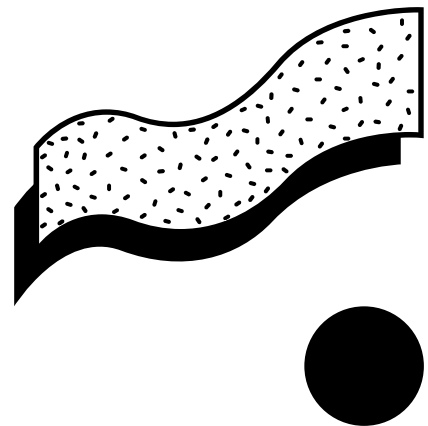

INTEGRATED 9AI BUSINESS SOLUTIONS PVT. LTD.

9ai.in

Challenges

Fostering Partnerships to Bridge the Knowledge Gap

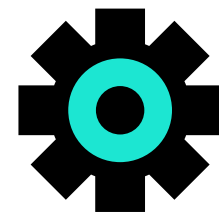

Closing the Expertise Gap

Shortage of Skilled AI and DeepTech Professionals Hinders Breakthroughs

Unlocking Tech Potential

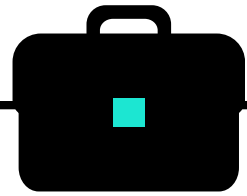

Suboptimal Utilization Limits Our Competitive Edge

Implementation Mastery

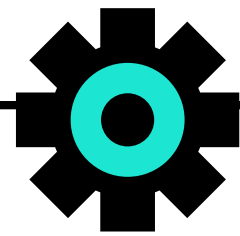

Overcoming Implementation Hurdles for AI and Automation Adoption

Solution

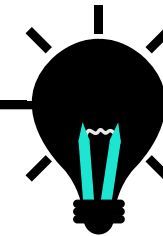

Disruptive Tech Partnership

Automating businesses with our strategic pipeline analysis which places AI automation where it matters, and our end-to-end implementation ensures seamless integration with lifetime maintenance

Innovative Product Partnership

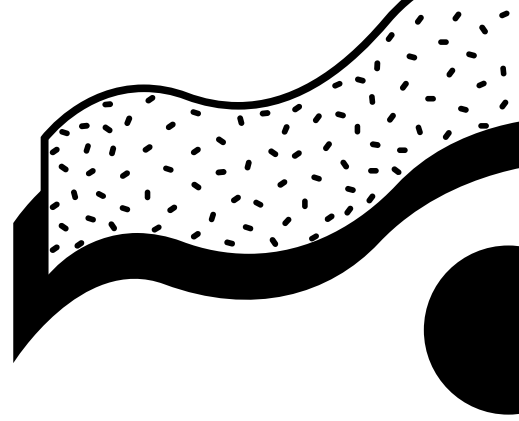

Igniting innovation through collaboration with startups solving business operational challenges, driving their disruptive product development and securing their competitive edge with strategic startup partnerships

Pioneering Research Excellence

Keeping our Partners ahead with cutting-edge AGI models research. Our deep exploration into technological frontiers guarantees their leading position in the evolving landscape of AI and DeepTech

Product

Lead & Sales Automation

Streamline lead management and increase conversions by automating sales processes with AI-powered solutions customized to your business.

Task & HR Automation

Automate repetitive administrative and HR tasks to improve productivity, reduce costs, and allow your team to focus on more strategic work.

Unlock Innovation with Custom LLMs

Develop specialized large language models that provide novel capabilities tailored to your unique business needs and industry applications.

Generative AI Solutions

We are experts in crafting personalized generative AI solutions that delve into vast data sets, unveil concealed patterns, and deliver customized insights.

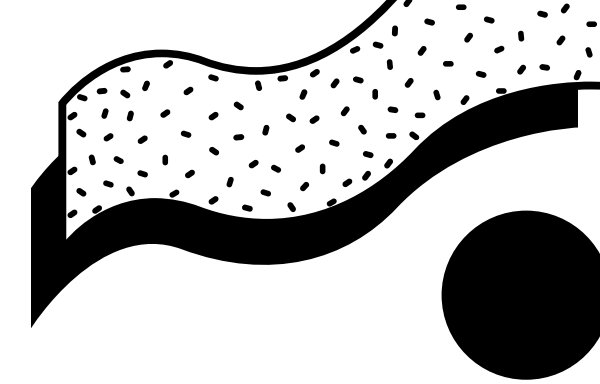

Chatbots & NLP Solution

Reduce the burden on customer support agents with a cost-efficient Messenger chatbot that recognizes customer intent, provides instant answers, and never takes a day off.

Custom Business Solutions

If Your Business Has a Custom Idea That needs to be implemented, Our Dedicated Workforce Can Convert That Idea Into Reality by Leveraging AI & Automation.

Case Studies

AI Assistant

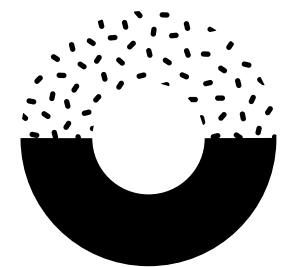

A custom large language model agent developed for a travel company automated intricate processes to drive a 63% decrease in operational costs and 10% rise in business conversions.

Leads Automation

Streamlined Cold Mailing with AI-powered Lead Funnel that enabled a business to efficiently manage 15,000+ leads, 30,000+ mails on single platform, driving an exceptional ROI

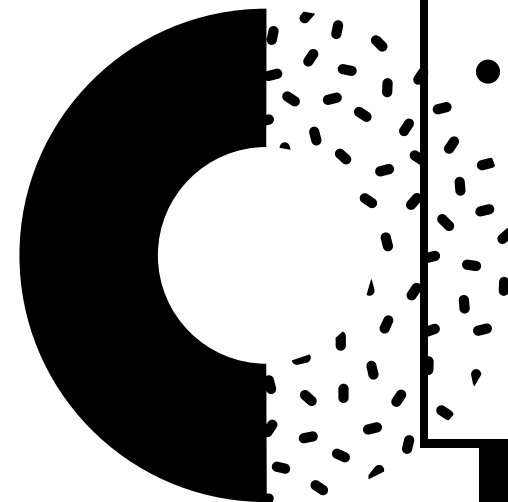

Automating Assessment

An AI grading tool leveraging the latest in natural language processing allows assessing 100 test copies for the same cost as manually checking just one, reducing expenditures by 99%.

Why Now ?

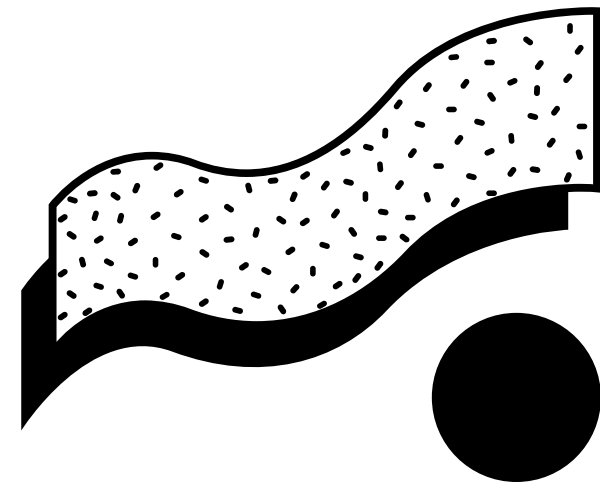

Business operations and technology have evolved from manual processes to computer integration, then the internet revolution, and now the AI and DeepTech wave. Each phase boosted operational efficiencies and innovation.

- **AI and LLM Advancements:** Breakthroughs in Generative AI, especially in LLMs and Multimodal Capabilities, open avenues for automating intricate tasks.
- **Big Data Accessibility:** Expanding data availability enables precise predictive models, fostering personalized and efficient solutions.
- **Enhanced Computational Power:** Cloud computing and GPUs democratize high computational power, making AI and DeepTech adoption economically feasible.
- **Startup Ecosystem Growth:** A thriving ecosystem accelerates innovation, supporting quick prototyping and deployment for AI and DeepTech solutions.

Why Us ?

- Established Tech Giants (Google, IBM, Microsoft)
- Emerging AI & DeepTech Startups
- Niche Solution Providers

Competitive Advantage

- **Agility and Specialization** : Unlike larger corporations, our focused approach enables quicker adaptation to technological advancements and customization.
- **Partnership Model** : Strategic partnerships with startups and research institutions for cutting-edge solutions.
- **Comprehensive Support** : Offering not just technology but end-to-end integration and continuous support.

Collaboration Model

Outsourcing Model

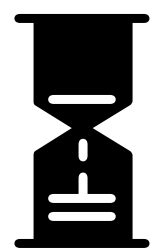

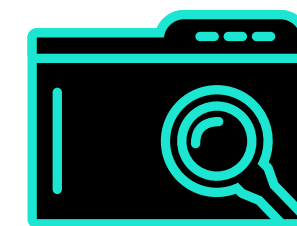

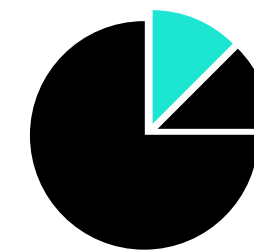

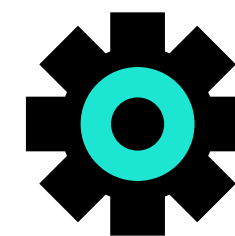

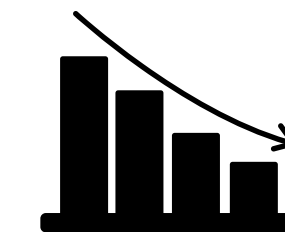

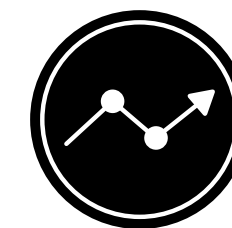

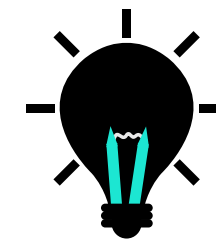

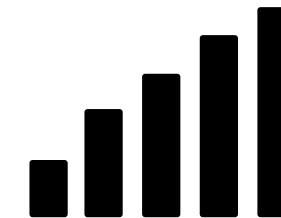

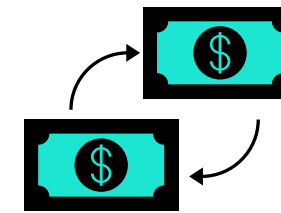

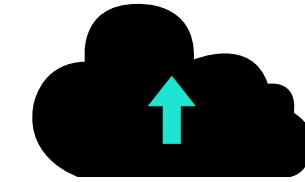

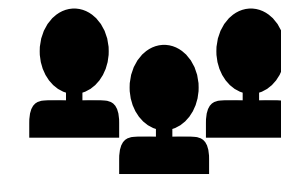

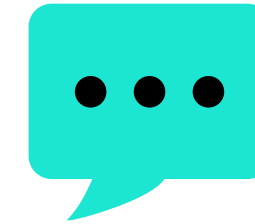

- Static Development Cost
- Annual Maintenance Contract

Agency Model

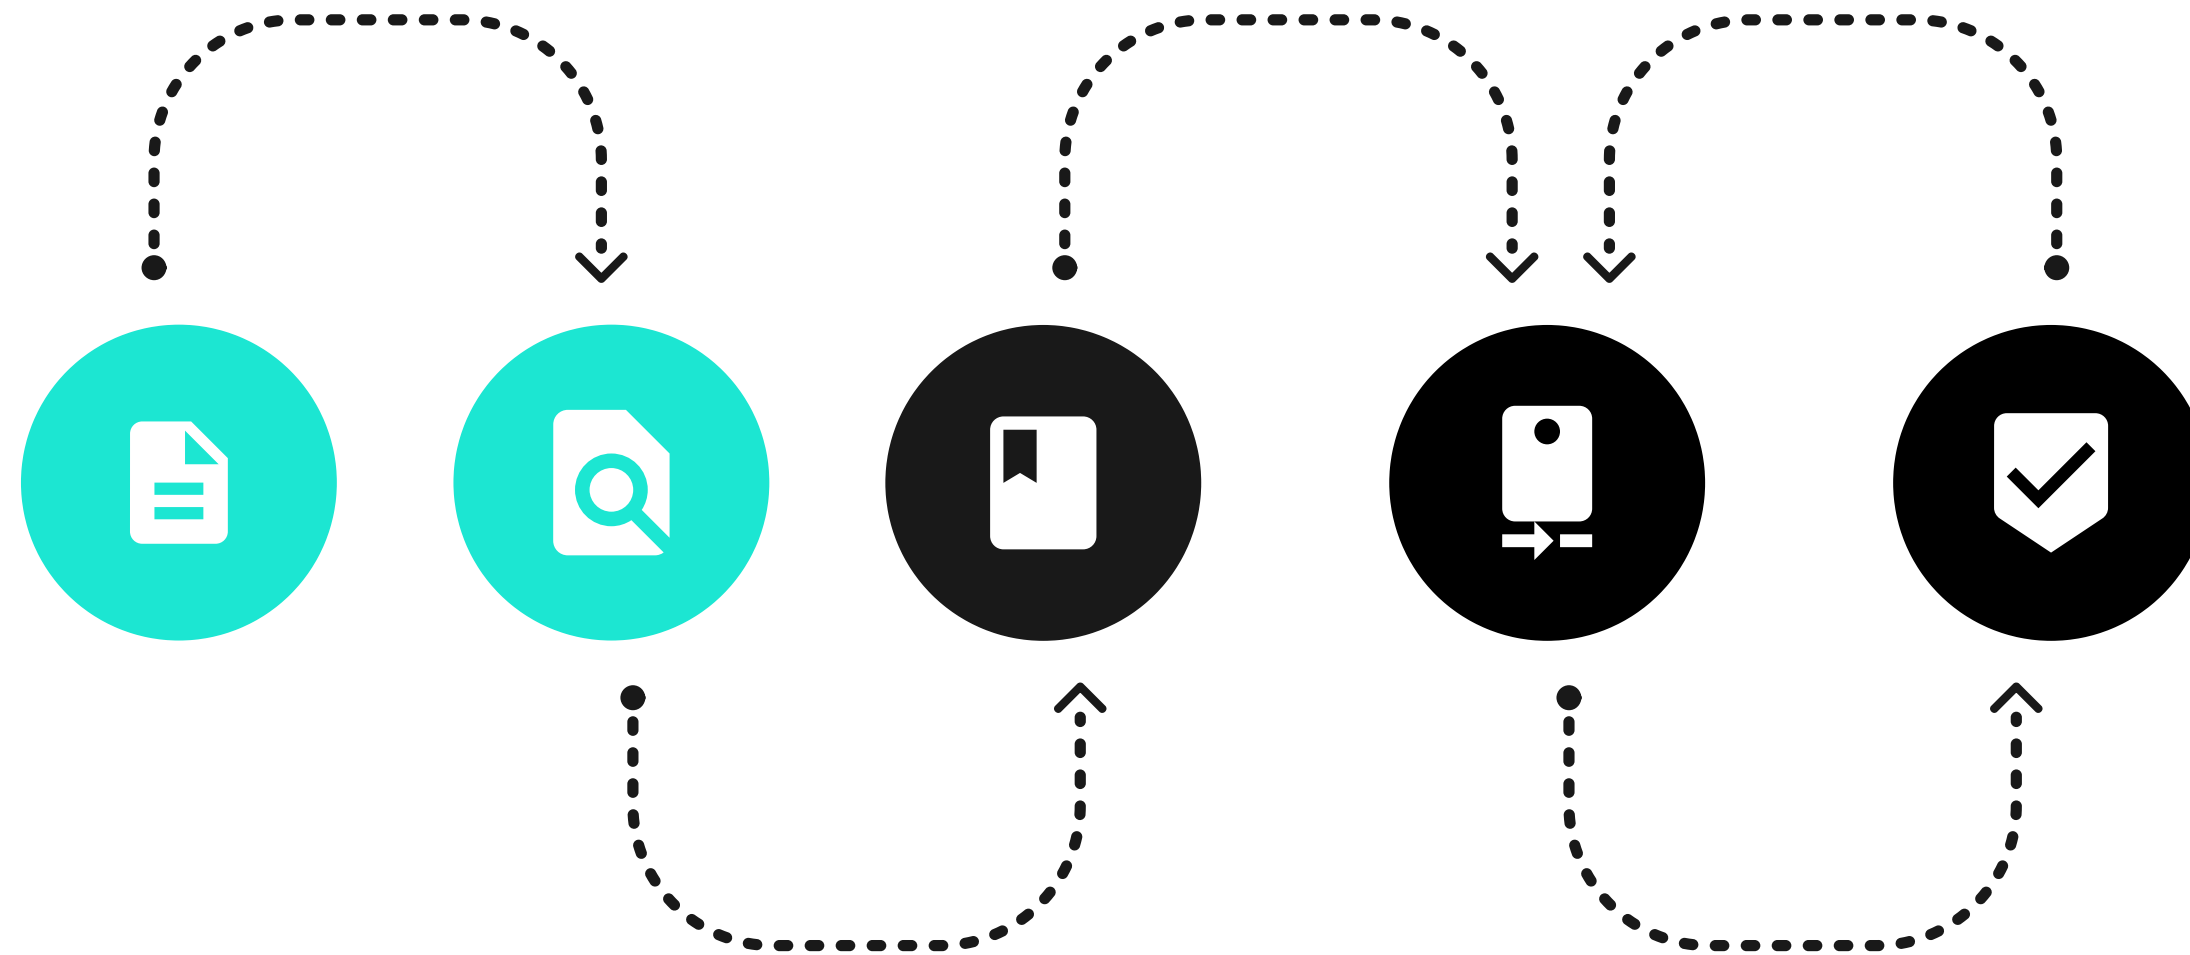

- Monthly Development Cost
- Annual Maintenance Contract

Partnership Model

- Minimum Monthly Development Cost
- Product Equity / Share

How we work ?

1 - Business Analysis

Detailed assessment of client requirements, industry landscape, and strategic goals

2 - Proposal

Tailored solutions, timelines, and costs outlined for client review and approval.

3 - Contract

Formalizing partnership terms to ensure clarity and accountability

4 - Development

Expert execution of proposed solutions with rigorous planning and testing.

5 - Assesment

Comprehensive evaluation of solution effectiveness and continuous improvement measures
